Carrie - we have an extension to Nov. 10, but we still need to make sure ORC is in concurrence on this letter.

I think the important thing is to present the current facts. I think you have done that.

Kathryn Thomas--10/26/2010 06:30:20 AM--yes, I wasn't sure if we should include this or not and how far to take it. On one side... it opens

yes, I wasn't sure if we should include this or not and how far to take it.

On one side... it opens up a new can of worms that he didn't ask about (but he's seen the IG report). On the other, it's an opportunity to make our case to a reporter and possibly clear things up a little. However, he may be on McCoy's side (CANM) and looking for more dirt on EPA or NMED. Is it worth the risk since the NM "independent" slammed us before (without even asking for our side of the story).

Looks good Kathy. One question...

The EPA Office of Inspector General (OIG) Hotline Report dated April 14, 2010, "Region 6 Needs to Improve Oversight Practices," referred to this document and claimed that it had been inappropriately withheld from the public by marking it "confidential" and classified under National Security. The OIG has since admitted they erred; the document was withheld under Exemption 5 of FOIA (enclosed).

Is the enclosure the memo from the OIG to Perclasepe? That is fine, just checking.
